

June 2009

Dear Parents and Students,

The school year is drawing to a close and summer is only a month away!

I hope the parents are as excited about summer plans as the students are.

You may have already noticed that your bill only reflects the sessions your child is scheduled for up to the 27th of June. Classes will resume again on July 6th.

For those families continuing through the summer please note that I have included letters with available hours for tutoring. Summer hours vary slightly, there will be morning and afternoon classes available.

H1N1: A current student recently went to Mexico for 2 weeks. According to the CDC there is a 1-4 days time between exposure and symptoms. If you suspect your child is sick please keep them home and inform me asap so we can prevent the virus from spreading. In preparation, and as always, the center is sanitized every day and we will continue to do so.

I wish all my students a happy graduation from the 2008-2009 school year!

Veronica Thomen: CLA Director
